We will verify your certification, make a replacement card and return it to you as quickly as possible. **If for any reason we are unable to verify your certification, we will return your photo and payment.**

**Replacement Cards – 1977 NASDS Fire.** We may not be able to locate records in our NASDS files because of a fire that occurred at NASDS headquarters in 1977, destroying all previous records. However, we will be glad to replace your card if you can send us any of the following: • A photocopy of both sides of your NASDS card (even if it is in pieces or damaged) • A photocopy of a diploma, certificate, or temporary card indicating the completion of your diving course • A photocopy of your diving logs with an instructor signature • A letter from your instructor verifying that you took the diving course; along with his or her signature, instructor number, and a contact number • A letter from a dealer, resort, or dive shop that has seen your card on their company letterhead with signature and contact number. With this information, we will be able to complete the processing of your card. If you have further questions, please contact us at 800.821.4319 or by email at [c-cards@ssiusa.com](mailto:c-cards@ssiusa.com).
